

448 Reasons Why I Cannot Trust Any Modern Bible Version!

By Dr. Ken Matto

Sent March 14, 2012

Three of the most conspicuous characteristics of the modern versions of the Bible is the omission of complete Bible verses, the omission of key parts of many verses, and the changing of the text thus changing it's meaning completely. When one uses a modern version, they are using a seriously corrupted version which has been handed down to modern day scholarship by the Gnostics of the 2nd and 3rd century. These modern versions are nothing but counterfeits and have brought nothing but confusion into the church and the Christian. A Christian who uses multiple versions for their study is basing their study on corruption. I want to focus on the egregious omissions in the modern versions. If you have a modern version, I urge you to make the comparison between your modern version and the King James Bible. You will see that what is missing in your modern version, is not missing in the King James Bible. Who is the author of confusion? *(1 Cor 14:33 KJV) For God is not the author of confusion, but of peace, as in all churches of the saints. According to this verse it definitely is not God, so then why would you want to use a counterfeit version devised by the enemy of Christ?*
